Ų.

DETAILED ACTION

- This action is responsive to the amendment filed on December 6, 2007.
- The rejection of claims 1-4 and 11-30 under 35 U.S.C. 102(e) as being anticipated by Duffer et al. (US 6,669,933 B2) is maintained for the reasons set forth in the previous office action mailed on June 6, 2007.
- The rejection of claims 5-10 and 31-33 under 35 U.S.C. 103(a) as being unpatentable over Duffer et al. (US 6,669,933 B2) is maintained for the reasons set forth in the previous office action mailed on June 6, 2007.

Response to Applicant's Arguments

4 Applicant's arguments filed 12/6/2007 have been fully considered but they are not persuasive.

With respect to the rejection of claims 1-4 and 11-30 under 35 U.S.C. 102(e) as being anticipated by Duffer et al. (US' 933 B2), Applicant argues that Duffer neither teaches nor suggests the claimed combination of ingredients in the required concentration/ratios.

The examiner respectfully disagrees with the above arguments because Duffer et al. (US' 933 B2) clearly teaches a mixture of alkalizing agents that comprise alkanolamines and metasilicates in the amounts of 1-5% which within the claimed percentage amounts (see col. 6, lines 25-33). Therefore, the reference clearly anticipates the claims.

With respect to the arguments based on the comparative data in the Examples at pages 13-15, the examiner would like to point out that the Examples are not applicable to the prior art of record since the prior art of record (US' 933 B2) teaches a mixture of alkalizing agents of metasilicates and alkanolamines in the amounts of 1 to 5% which are far away less that 10% and

Application/Control Number:

10/603,815 Art Unit: 1796

thus a person of the ordinary skill in the art would expect such a composition to have similar properties to those claimed.

Further, with respect to applicant's arguments to the rejection under 102(e) based on the Declaration, the examiner would like to point out that the declaration can not obviate the rejection under 102(e).

With respect to applicant's arguments to rejection under 103(a) based on the Declaration, the examiner would like to point out that the declaration can not obviate the rejection under 103(a) because the prior art of record (US' 933 B2) clearly teaches and suggests the claimed limitations wherein the composition comprises a mixture of alkalizing agents of metasilicates and alkanolamines as claimed, and, thus, a person of the ordinary skill in the art would expect such a composition to have similar properties to those claimed. Therefore, the rejection under 103(a) is proper and maintained.

5 THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Application/Control Number:

10/603,815 Art Unit: 1796

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eisa B. Elhilo whose telephone number is (571) 272-1315. The examiner can normally be reached on M - F (8:00 -4:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Pyon Harold can be reached on (571) 272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
